

# The **NEW** Winter-Jet 3

Gets you through the winter!

Mabor. A brand of Continental.

# Winter-Jet 3

Mabor tyres come from the land of discoverers and now they are exploring the roads throughout Europe. State-of-the-art technology ensures safe driving enjoyment with a dash of Iberian passion. Mabor offers a range of great tyres to meet all requirements, even in harsh winter weather conditions.

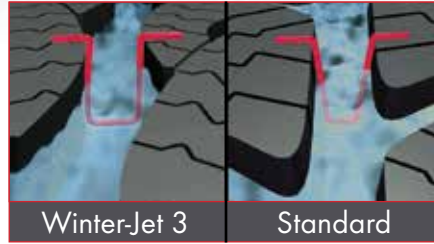

## Snow performance

► **Excellent handling on snow.**

The functional triple gripping edge system (FLS) and the reinforced tread blocks achieve excellent directional stability and better grip on snow-covered roads.

## Wet performance

► **Efficient water dispersal.**

The laterally angled tread grooves and the 3D groove profile allow an efficient drainage upon contact with the water film on the road.

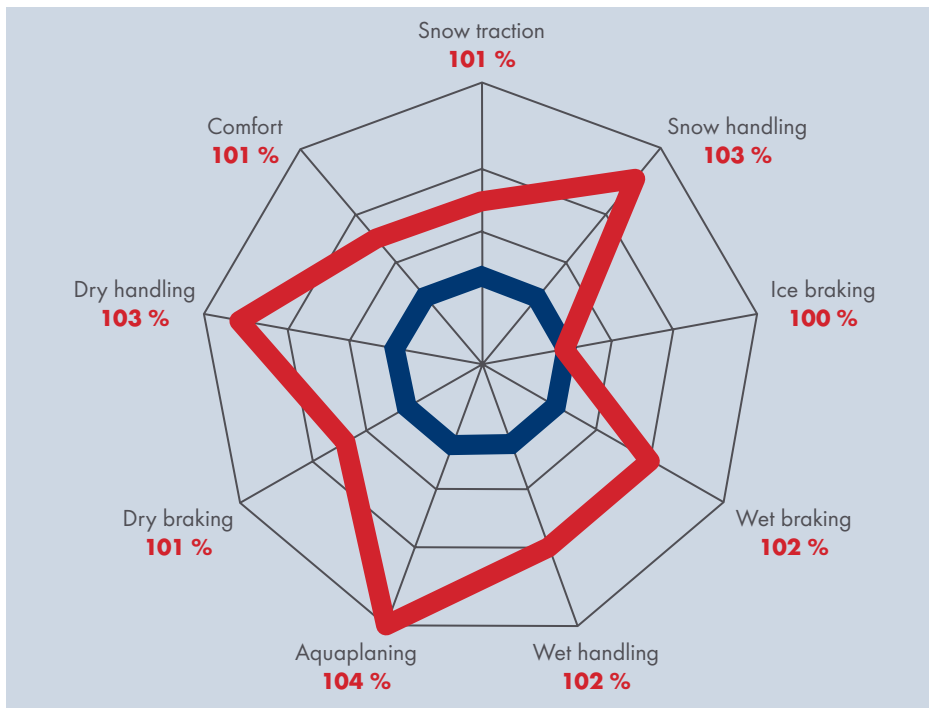

## Dry performance

► **Safe handling and braking.**

Wavelike gripping edges in strained tread areas and tread block connectors reduce block deformation of the tread. This stabilises during braking and during cornering.
